THE COVER-UP PART TWO.

The ranch owner was picked up from his ranch, and taken to the house of the owner, of the local Roswell Radio Station, KGFL, to be interviewed. A recording of the interview was made, and the station planned to broadcast it the next morning. But before it could be broadcast Brazel was taken into custody by members of the Military Police, and his exclusive interview became confiscated.

The Federal Communications Commission (reported to have been through the office of T.J. Slowie, Secretary of the Commission), warned radio station personnel that the matter involved National Security and should KGFL air any portion of the interview, or issue any information regarding it, they would lose their broadcasting license!

Sometime later Brazel showed up at KGFL Radio Station escorted by Military Officers, where he then told the "truth" about the debris found on his ranch. Brazel took back his initial story, instead claiming now, that he first found the debris in middle of June, in 1947, and NOT the morning of Saturday, July 5, in 1947, as he first told them. And that it was a simple weather balloon.

The reasons for the cover-up by the Military, came via order from United States President, who wanted to avoid panic. A good comparison for understandment would be: Think that the Soviet Union was the first to possess the atomic bomb. Something like that. And these "visitors" can not be trusted.— AMEN! And GOOD LUCK!

This is NOT a weather balloon.

And this United States Army hand is not fake.

Brazel said that he had previously found two weather observation balloons on the ranch, but that what he found this time did not in any way resemble either of these.

"I am sure what I found was not any weather observation balloon," he said. "But if I find anything else, besides a bomb, they are going to have a hard time getting me to say anything about it."

SUBJECT: OPERATION MAJESTIC-12 PRELIMINARY BRIEFING FOR
PRESIDENT-ELECT EISENHOWER.

DOCUMENT PREPARED 18 NOVEMBER, 1952.

BRIEFING OFFICER: ADM. ROSCOE H. HILLENKOETTER (MJ-1)

NOTE: This document has been prepared as a preliminary briefing only. It should be regarded as introductory to a full operations briefing intended to follow.

OPERATION MAJESTIC-12 is a TOP SECRET Research and Development/Intelligence operation responsible directly and only to the President of the United States. Operations of the project are carried out under control of the Majestic-12 (Majic-12) Group which was established by special classified executive order of President Truman on 24 September, 1947, upon recommendation by Dr. Vannevar Bush and Secretary James Forrestal. (See Attachment "A".) Members of the Majestic-12 Group were designated as follows:

Adm. Roscoe H. Hillenkoetter
Dr. Vannevar Bush
Secy. James V. Forrestal*
Gen. Nathan F. Twining
Gen. Hoyt S. Vandenberg
Dr. Detlev Bronk
Dr. Jerome Hunsaker
Mr. Sidney W. Souers
Mr. Gordon Gray
Dr. Donald Menzel
Gen. Robert M. Montague
Dr. Lloyd V. Berkner

The death of Secretary Forrestal on 22 May, 1949, created a vacancy which remained unfilled until 01 August, 1950, upon which date Gen. Walter B. Smith was designated as permanent replacement.

On 24 June, 1947, a civilian pilot flying over the Cascade Mountains in the State of Washington observed nine flying disc-shaped aircraft traveling in formation at a high rate of speed. Although this was not the first known sighting of such objects, it was the first to gain widespread attention in the public media. Hundreds of reports of sightings of similar objects followed. Many of these came from highly credible military and civilian sources. These reports resulted in independent efforts by several different elements of the military to ascertain the nature and purpose of these objects in the interests of national defense. A number of witnesses were interviewed and there were several unsuccessful attempts to utilize aircraft in efforts to pursue reported discs in flight. Public reaction bordered on near hysteria at times.

In spite of these efforts, little of substance was learned about the objects until a local rancher reported that one had crashed in a remote region of New Mexico located approximately seventy-five miles northwest of Roswell Army Air Base (now Walker Field).

On 07 July, 1947, a secret operation was begun to assure recovery of the wreckage of this object for scientific study. During the course of this operation, aerial reconnaissance discovered that four small human-like beings had apparently ejected from the craft at some point before it exploded. These had fallen to earth about two miles east of the wreckage site. All four were dead and badly decomposed due to action by predators and exposure to the elements during the approximately one week time period which had elapsed before their discovery. A special scientific team took charge of removing these bodies for study. (See Attachment "C".) The wreckage of the craft was also removed to several different locations. (See Attachment "B".) Civilian and military witnesses in the area were debriefed, and news reporters were given the effective cover story that the object had been a misguided weather research balloon.

A covert analytical effort organized by Gen. Twining and Dr. Rush acting on the direct orders of the President, resulted in a preliminary consensus (19 September, 1947) that the disc was most likely a short range reconnaissance craft. This conclusion was based for the most part on the craft's size and the apparent lack of any identifiable provisioning. (See Attachment "D".) A similar analysis of the four dead occupants was arranged by Dr. Bronk. It was the tentative conclusion of this group (30 November, 1947) that although these creatures are human-like in appearance, the biological and evolutionary processes responsible for their development has apparently been quite different from those observed or postulated in homo-sapiens. Dr. Bronk's team has suggested the term "Extra-terrestrial Biological Entities", or "ETEs", be adopted as the standard term of reference for these creatures until such time as a more definitive designation can be agreed upon.

Since it is virtually certain that these craft do not originate in any country on earth, considerable speculation has centered around what their point of origin might be and how they get here. Mars was and remains a possibility, although some scientists, most notably Dr. Menzel, consider it more likely that we are dealing with beings from another solar system entirely.

Numerous examples of what appear to be a form of writing were found in the wreckage. Efforts to decipher these have remained largely unsuccessful. (See Attachment "E".) Equally unsuccessful have been efforts to determine the method of propulsion or the nature or method of transmission of the power source involved. Research along these lines has been complicated by the complete absence of identifiable wings, propellers, jets, or other conventional methods of propulsion and guidance, as well as a total lack of metallic wiring, vacuum tubes, or similar recognizable electronic components. (See Attachment "F".) It is assumed that the propulsion unit was completely destroyed by the explosion which caused the crash.

A need for as much additional information as possible about these craft, their performance characteristics and their purpose led to the undertaking known as U.S. Air Force Project SIGN in December, 1947. In order to preserve security, liason between SIGN and Majestic-12 was limited to two individuals within the Intelligence Division of Air Materiel Command whose role was to pass along certain types of information through channels. SIGN evolved into Project GRUDGE in December, 1948. The operation is currently being conducted under the code name BLUE BOOK, with liason maintained through the Air Force officer who is head of the project.

On 06 December, 1950, a second object, probably of similar origin, impacted the earth at high speed in the El Indio - Guerrero area of the Texas - Mexican border after following a long trajectory through the atmosphere. By the time a search team arrived, what remained of the object had been almost totally incinerated. Such material as could be recovered was transported to the A.E.C. facility at Sandia, New Mexico, for study.

Implications for the National Security are of continuing importance in that the motives and ultimate intentions of these visitors remain completely unknown. In addition, a significant upsurge in the surveillance activity of these craft beginning in May and continuing through the autumn of this year has caused considerable concern that new developments may be imminent. It is for these reasons, as well as the obvious international and technological considerations and the ultimate need to avoid a public panic at all costs, that the Majestic-12 Group remains of the unanimous opinion that imposition of the strictest security precautions should continue without interruption into the new administration. At the same time, contingency plan MJ-1949-04P/78 (Top Secret - Eyes Only) should be held in continued readiness should the need to make a public announcement present itself. (See Attachment "G".)

MEMORANDUM FOR THE SECRETARY OF DEFENSE

Dear Secretary Forrestal:

As per our recent conversation on this matter, you are hereby authorized to proceed with all due speed and caution upon your undertaking. Hereafter this matter shall be referred to only as Operation Majestic Twelve.

It continues to be my feeling that any future considerations relative to the ultimate disposition of this matter should rest solely with the Office of the President following appropriate discussions with yourself, Dr. Bush and the Director of Central Intelligence.

Roscoe H. Hillenkoetter

Roscoe Henry Hillenkoetter was the third director of the post-World War II United States Central Intelligence Group, the third Director of Central Intelligence, and the first director of the Central Intelligence Agency created by the National Security Act of 1947. He served as DCI and director of the CIG and the CIA from May 1, 1947, to October 7, 1950, and, after his retirement from the United States Navy, was a member of the board of governors of National Investigations Committee On Aerial Phenomena from 1957 to 1962. Born: Roscoe Henry Hillenkoetter, May 8, 1897, St. Louis, Missouri, U.S.

Died: June 18, 1982, New York City, New York, U.S.

Spouse(s): Jane Clark

Education: United States Naval Academy

President: Harry Truman

Deputy: Edwin K. Wright

Preceded by: Hoyt Vandenberg

Succeeded by: Walter B. Smith

James Forrestal

James Vincent Forrestal was the last Cabinet-level United States Secretary of the Navy and the first United States Secretary of Defense. Forrestal came from a very strict middle-class Irish Catholic family. He was a successful financier on Wall Street before becoming Undersecretary of the Navy in 1940, shortly before the United States entered the Second World War. He became Secretary of the Navy in May 1944 upon the death of his superior, Frank Knox. President Franklin D. Roosevelt requested that Forrestal take the lead in building up the Navy. In 1947, after the end of the war, President Harry S. Truman appointed him the first secretary of the newly created Department of Defense. Forrestal was intensely hostile to the Soviet Union, fearing Communist expansion in Europe and the Middle East. [Wikipedia](#)

Born: James Vincent Forrestal, February 15, 1892, Matteawan, New York, U.S. (now Beacon)

Died: May 22, 1949, Bethesda, Maryland, U.S.

Political party: none

Children: 2, including Michael

Education: Dartmouth College, Princeton University

President: Harry S. Truman

Preceded by: Position established

Succeeded by: Louis A. Johnson

Dr. Vannevar Bush.

Dwight D. Eisenhower

Dwight David "Ike" Eisenhower was an American military officer and statesman who served as the 34th president of the United States from 1953 to 1961. During World War II, he served as Supreme Commander of the Allied Expeditionary Force in Europe and achieved the five-star rank of General of the Army. He planned and supervised the invasion of North Africa in Operation Torch in 1942–1943 as well as the invasion of Normandy from the Western Front in 1944–1945. Eisenhower was born into a large family of mostly Pennsylvania Dutch ancestry in Denison, Texas, and raised in Abilene, Kansas. His family had a strong religious background, and his mother became a Jehovah's Witness. Eisenhower, however, belonged to no organized church until 1952. He graduated from West Point in 1915 and later married Mamie Doud, with whom he had two sons. During World War I, he was denied a request to serve in Europe and instead commanded a unit that trained tank crews. [Wikipedia](#)

Born: David Dwight Eisenhower, October 14, 1890, Denison, Texas, U.S.

Died: March 28, 1969, Washington, D.C., U.S.

Resting place: Dwight D. Eisenhower Presidential Library, Museum and Boyhood Home

Political party: Republican (1952–1969)

Children: Doud, John

Parents: David Jacob Eisenhower, Ida Stover

Relatives: Family of Dwight D. Eisenhower

Education: United States Military Academy (BS)

Occupation: Military officer, politician

Harry S Truman

Harry S. Truman was the 33rd president of the United States from 1945 to 1953, succeeding upon the death of Franklin D. Roosevelt after serving as vice president. He implemented the Marshall Plan to rebuild the economy of Western Europe, and established the Truman Doctrine and NATO. Truman grew up in Independence, Missouri, and during World War I was sent to France as a captain in the Field Artillery. Returning home, he opened a haberdashery in Kansas City, Missouri and was later elected as a Jackson County official in 1922. Truman was elected to the United States Senate from Missouri in 1934 and gained national prominence as chairman of the Truman Committee aimed at reducing waste and inefficiency in wartime contracts. Soon after succeeding to the presidency he authorized the first and only use of nuclear weapons in war. Truman's administration engaged in an internationalist foreign policy and renounced isolationism. [Wikipedia](#)

THE MJ-12 MANUAL

Critics say the following MJ12 manual is not real because, in it, they tell about satellites, already in 1954, (or actually in 1957, when the last note or change was made in this MJ12 manual).

- Well, they had balloon satellites.
- And they were fully aware that even the moon above are a satellite.
- They write a field manual about UFO's, so of course they know what a satellite is.
- If one can fly to here from another Solar System, that one can also have satellites, above us.
- THE MANUAL IS LEGIT. IT'S REAL U.S. GOVERNMENT PROPERTY.
- They don't nail all of their alien descriptions 100% correct in this 1950's manual, though.
- Some of the text are based on qualified guesses and they had a really hard time to put this manual together at all. The Aliens didn't want it to exist.

The Soviet Union: 4 October 1957 - The first rocket-launched satellite was placed into an elliptical low Earth orbit from Baikonur Cosmodrome. Sputnik 1 circled the Earth every 96 minutes, and its simple radio signal was heard by scientists and radio operators across the world.

CHAPTER 1
OPERATION MAJESTIC—12

Section I. PROJECT PURPOSE AND GOALS

1. Scope

This manual has been prepared especially for Majestic—12 units. Its purpose is to present all aspects of Majestic—12 so authorized personnel will have a better understanding of the goals of the Group, be able to more expertly deal with Unidentified Flying Objects, Extraterrestrial Technology and Entities, and increase the efficiency of future operations.

2. General

MJ—12 takes the subject of UFOBs, Extraterrestrial Technology, and Extraterrestrial Biological Entities very seriously and considers the entire subject to be a matter of the very highest national security. For that reason everything relating to the subject has been assigned the very highest security classification. Three main points will be covered in this section.

- a. The general aspects of MJ—12 to clear up any misconceptions that anyone may have.
- b. The importance of the operations.
- c. The need for absolute secrecy in all phases of operation.

3. Security Classification

All information relating to MJ—12 has been classified MAJIC EYES ONLY and carries a security level 2 points above that of Top Secret. The reason for this has to do with the consequences that may arise not only from the impact upon the public should the existence of such matters become general knowledge, but also the danger of having such advanced technology as has been recovered by the Air Force fall into the hands of unfriendly foreign powers. No information is released to the public press and the official government position is that no special group such as MJ—12 exists.

4. History of the Group

Operation Majestic—12 was established by special classified presidential order on 24 September 1947 at the recommendation of Secretary of Defense James V. Forrestal and Dr. Vannevar Bush, Chairman of the Joint Research and Development Board. Operations are carried out under a Top Secret Research and Development - Intelligence Group directly responsible only to the President of the United States. The goals of the MJ—12 Group

MJ—12 4838H

TOP SECRET / MAJIC EYES ONLY

REPRODUCTION IN ANY FORM IS FORBIDDEN BY FEDERAL LAW.

TOP SECRET / MAJIC EYES ONLY

are as follows:

a. The recovery for scientific study of all materials and devices of a foreign or extraterrestrial manufacture that may become available. Such material and devices will be recovered by any and all means deemed necessary by the Group.

b. The recovery for scientific study of all entities and remains of entities not of terrestrial origin which may become available through independent action by those entities or by misfortune or military action.

c. The establishment and administration of Special Teams to accomplish the above operations.

d. The establishment and administration of special secure facilities located at secret locations within the continental borders of the United States for the receiving, processing, analysis, and scientific study of any and all material and entities classified as being of extraterrestrial origin by the Group or the Special Teams.

e. Establishment and administration of covert operations to be carried out in concert with Central Intelligence to effect the recovery for the United States of extraterrestrial technology and entities which may come down inside the territory of or fall into the possession of foreign powers.

f. The establishment and maintenance of absolute top secrecy concerning all the above operations.

5. Current Situation

It is considered as far as the current situation is concerned, that there are few indications that these objects and their builders pose a direct threat to the security of the United States, despite the uncertainty as to their ultimate motives in coming here. Certainly the technology possessed by these beings far surpasses anything known to modern science, yet their presence here seems to be benign, and they seem to be avoiding contact with our species, at least for the present. Several dead entities have been recovered along with a substantial amount of wreckage and devices from downed craft, all of which are now under study at various locations. No attempt has been made by extraterrestrial entities either to contact authorities or to recover their dead counterparts or the downed craft, even though one of the crashes was the result of direct military action. The greatest threat at this time arises from the acquisition and study of such advanced technology by foreign powers unfriendly to the United States. It is for this reason that the recovery and study of this type of material by the United States has been given such a high priority.

CHAPTER 2 INTRODUCTION

Section I. GENERAL

6. Scope

a. This operations manual is published for the information and guidance of all concerned. It contains information on determination, documentation, collection, and disposition of debris, devices, craft, and occupants of such craft as defined as Extraterrestrial Technology or Extraterrestrial Biological Entities (EBEs) in Section II of this chapter.

b. Appendix I-1a contain a list of current references, including technical manuals and other available publications applicable to these operations.

c. Appendix II contains a list of personnel who comprise the Majestic-12 Group.

7. Forms and Records

Forms used for reporting operations are listed in Appendix I.

Section II. DEFINITION AND DATA

B. General

Extraterrestrial Technology is defined as follows:

a. Aircraft identified as not manufactured in the United States or any terrestrial foreign power, including experimental military or civilian aircraft. Aircraft in this category are generally known as Unidentified Flying Objects (UFOs). Such aircraft may appear as one of several shapes and configurations and exhibit extraordinary flight characteristics.

b. Objects and devices of unknown origin or function, manufactured by processes or of materials not consistent with current technology or scientific knowledge.

c. Wreckage of any aircraft thought to be of extraterrestrial manufacture or origin. Such wreckage may be the result of accidents or military action.

d. Materials that exhibit unusual or extraordinary characteristics not consistent with current technology or scientific knowledge.

Extraterrestrial Biological Entities (EBEs) are described as:

a. Creatures, humanoid or otherwise, whose evolutionary processes responsible for their development is demonstrably different from those postulated or observed in homo sapiens.

9. Description of Craft

Documented extraterrestrial craft (UFOBs) are classified in one of four categories based on general shape, as follows:

a. *Elliptical, or disc shape.* This type of craft is of a metallic construction and dull aluminum in color. They have the appearance of two pie-pans or shallow dishes pressed together and may have a raised dome on the top or bottom. No seams or joints are visible on the surface, giving the impression of one-piece construction. Discs are estimated from 50-300 feet in diameter and the thickness is approximately 15 per cent of the diameter, not including the dome, which is 30 per cent of the disc diameter and extends another 4-6 feet above the main body of the disc. The dome may or may not include windows or ports, and ports are present around the lower rim of the disc in some instances. Most disc-shaped craft are equipped with lights on the top and bottom, and also around the rim. These lights are not visible when the craft is at rest or not functioning. There are generally no visible antenna or projections. Landing gear consists of three extendible legs ending in circular landing pads. When fully extended this landing gear supports the main body 2-3 feet above the surface at the lowest point. A rectangular hatch is located along the equator or on the lower surface of the disc.

b. *Fuselage or cigar shape.* Documented reports of this type of craft are extremely rare. Air Force radar reports indicate they are approximately 2 thousand feet long and 95 feet thick, and apparently they do not operate in the lower atmosphere. Very little information is available on the performance of these craft, but radar reports have indicated speeds in excess of 7,000 miles per hour. They do not appear to engage in the violent and erratic maneuvers associated with the smaller types.

c. *Ovoid or circular shape.* This type of craft is described as being shaped like an ice cream cone, being rounded at the large end and tapering to a sharp-point at the other end. They are approximately 30-40 feet long and the thick end diameter is approximately 20 per cent of the length. There is an extremely bright light at the pointed end, and this craft usually travels point down. They can appear to be any shape from round to cylindrical, depending upon the angle of observation. Often sightings of this type of craft are elliptical craft seen at an inclined angle or edge-on.

d. *Airfoil or triangular shape.* This craft is believed to be new technology due to the rarity and recency of the observations. Radar indicates an isosceles triangle profile, the longest side being nearly 300 feet in length. Little is known about the performance of these craft due to the rarity of good sightings, but they are believed capable of high speeds and abrupt maneuvers similar to or exceeding the performance attributed to types "a" and "c".

10. Description of Extraterrestrial Biological Entities (EBEs)

Examination of remains recovered from wreckage of UFOBs indicates that Extraterrestrial Biological Entities may be classified into two distinct categories as follows:

a. *EBE Type I.* These entities are humanoid and might be mistaken for human beings of the Oriental race if seen from a distance. They are bi-pedal, 5-5 feet 4 inches in height and weigh 80-100 pounds. Proportionally they are similar to humans, although the cranium is somewhat larger and more rounded. The skin is a pale, chalky-yellow in color, thick, and slightly pebbled in appearance. The eyes are small, wide-set, almond-shaped, with brownish-black irises with very large pupils. The whites of the eyes are not like that of humans, but have a pale gray cast. The ears are small and set low on the skull. The nose is thin and long, and the mouth is wider than in humans, and nearly lipless. There is no apparent facial hair and very little body hair, that being very fine and confined to the underarm and the groin area. The body is thin and without apparent body fat, but the muscles are well-developed. The hands are small, with four long digits but no opposable thumb. The outside digit is jointed in a manner as to be nearly opposable, and there is no webbing between the fingers as in humans. The legs are slightly but noticeably bowed, and the feet are somewhat splayed and proportionally large.

b. *EBE Type II.* These entities are humanoid but differ from Type I in many respects. They are bi-pedal, 3 feet 5 inches - 4 feet 2 inches in height and weigh 25-50 pounds. Proportionally, the head is much larger than humans or Type I EBEs, the cranium being much larger and elongated. The eyes are very large, slanted, and nearly wrap around the side of the skull. They are black with no whites showing. There is no noticeable brow ridge, and the skull has a slight peak that runs over the crown. The nose consists of two small slits which sit high above the slit-like mouth. There are no external ears. The skin is a pale bluish-gray color, being somewhat darker on the back of the creature, and is very smooth and fine-celled. There is no hair on either the face or the body, and these creatures do not appear to be mammalian. The arms are long in proportion to the legs, and the hands have three long, tapering fingers and a thumb which is nearly as long as the fingers. The second finger is thicker than the others, but not as long as the index finger. The feet are small and narrow, and four toes are joined together with a membrane.

It is not definitely known where either type of creature originates, but it seems certain that they did not evolve on earth. It is further evident, although not certain, that they may have originated on two different planets.

11. Description of Extraterrestrial Technology

The following information is from preliminary analysis reports of wreckage collected from crash sites of extraterrestrial craft 1947-1953, excerpts from which are quoted verbatim to provide guidance as to the type and characteristics of material that might be encountered in future recovery operations.

a. Initial analysis of the debris from the crash site seems to indicate that the debris is that of an extraterrestrial craft which exploded from within and came into contact with the ground with great force, completely destroying the craft. The volume of matter indicates that the craft was approximately the size of a medium aircraft, although the weight of the debris indicates that the craft was extremely light for its size.

b. Metallurgical analysis of the bulk of the debris recovered indicates that the samples are not composed of any materials currently known to Terrestrial science.

c. The material tested possesses great strength and resistance to heat in proportion to its weight and size, being stronger by far than any materials used in military or civilian aircraft at present.

d. Much of the material, having the appearance of aluminum foil or aluminum-magnesium sheeting, displays none of the characteristics of either metal, resembling instead some kind of unknown plastic-like material.

e. Solid structures and substantial beams having a distinct similarity in appearance to very dense grain-free wood, was very light in weight and possesses tensile and compression strength not obtainable by any means known to modern industry.

f. None of the material tested displayed measurable magnetic characteristics or residual radiation.

g. Several samples were engraved or embossed with marks and patterns. These patterns were not readily identifiable and attempts to decipher their meaning has been largely unsuccessful.

h. Examination of several apparent mechanical devices, gears, etc. revealed little or nothing of their functions or methods of manufacture.

CHAPTER 3

RECOVERY OPERATIONS

Section I. SECURITY

12. Press Blackout

Great care must be taken to preserve the security of any location where Extraterrestrial Technology might be retrievable for scientific study. Extreme measures must be taken to protect and preserve any material or craft from discovery, examination, or removal by civilian agencies or individuals of the general public. It is therefore recommended that a total press blackout be initiated whenever possible. If this course of action should not prove feasible, the following cover stories are suggested for release to the press. The officer in charge will act quickly to select the cover story that best fits the situation. It should be remembered when selecting a cover story that official policy regarding UFOBs is that they do not exist.

a. *Official Denial.* The most desirable response would be that nothing unusual has occurred. By stating that the government has no knowledge of the event, further investigation by the public press may be forestalled.

b. *Discredit Witnesses.* If at all possible, witnesses will be held incommunicado until the extent of their knowledge and involvement can be determined. Witnesses will be discouraged from talking about what they have seen, and intimidation may be necessary to ensure their cooperation. If witnesses have already contacted the press, it will be necessary to discredit their stories. This can best be done by the assertion that they have either misinterpreted natural events, are the victims of hysteria or hallucinations, or are the perpetrators of hoaxes.

c. *Deceptive Statements.* It may become necessary to issue false statements to preserve the security of the site. Meteors, downed satellites, weather balloons, and military aircraft are all acceptable alternatives, although in the case of the downed military aircraft statement care should be exercised not to suggest that the aircraft might be experimental or secret, as this might arouse more curiosity of both the American and the foreign press. Statements issued concerning contamination of the area due to toxic spills from trucks or railroad tankers can also serve to keep unauthorized or undesirable personnel away from the area.

13. Secure the Area

The area must be secured as rapidly as possible to keep unauthorized personnel from infiltrating the site. The officer in charge will set up a perimeter and establish a command post inside the perimeter. Personnel allowed

MJ-12 4838B

8

TOP SECRET / MAJIC EYES ONLY

TOP SECRET / MAJIC EYES ONLY

the site will be kept to the absolute minimum necessary to prepare the craft or debris for transport, and will consist of Military Security Forces.

Local authorities may be pressed into service as traffic and crowd control. Under no circumstances will local officials or law enforcement personnel be allowed inside the perimeter and all necessary precautions should be taken to ensure that they do not interfere with the operation.

a. Perimeter. It is desirable that sufficient military personnel be utilized to set up a perimeter around the site large enough to keep both unauthorized personnel and the perimeter personnel from seeing the site. Once the site is contained, regular patrols will be set up along the perimeter to assure complete security, and electronic surveillance will be utilized to augment the patrols. Perimeter personnel will be equipped with hand communication and automatic weapons with live ammunition. Personnel working at the site will carry sidearms. No unauthorized personnel will be allowed into the secure area.

b. Command Post. Ideally, the command post should be as close to the site as is practical to efficiently coordinate operations. As soon as the command post is operational, contact with the Majestic-12 Group will be established via secure communications.

c. Area Sweep. The site and the surrounding area will be cleared of all unauthorized personnel. Witnesses will be debriefed and detained for further examination by MJ-12. Under no circumstances will witnesses be released from custody until their stories have been evaluated by MJ-12 and they have been thoroughly debriefed.

d. Situation Evaluation. A preliminary evaluation of the situation will be completed and a preliminary report prepared. The MJ-12 Group will then be briefed on the situation at the earliest possible opportunity. The MJ-12 Group will then make a determination as to whether or not a MJ-12 RED TEAM or OPNAC Team will be dispatched to the area.

Section II. TECHNOLOGY RECOVERY

4. Removal and Transport

As soon as communication is established, removal and transport of all materiel will commence under orders from MJ-12.

a. Documentation. If the situation permits, care should be taken to document the area with photographs before anything is moved. The area will be checked for radiation and other toxic agents. If the area cannot be kept secure for an extended period of time, all material must be packed and transported as quickly as possible to the nearest secure military facility. This will be accomplished by covered transport using little-traveled roads wherever possible.

b. Complete or Functional Craft. Craft are to be approached with extreme caution if they appear functional, as serious injury may result from exposure

MJ-12 4838B

9

TOP SECRET / MAJIC EYES ONLY

to radiation and electrical discharges. If the craft is functioning, but appears to be abandoned, it may be approached only by specially trained MJ-12 RED TEAM personnel wearing protective clothing. Any device that seems to be functioning should also be left to MJ-12 RED TEAM disposal. Complete craft and parts of crafts too large to be transported by covered transport will be disassembled, if this can be accomplished easily and quickly. If they must be transported whole, or on open flatbed trailers, they will be covered in such a manner as to camouflage their shape.

c. *Extraterrestrial Biological Entities.* EBEs must be removed to a top security facility as quickly as possible. Great care should be taken to prevent possible contamination by alien biological agents. Dead EBEs should be packed in ice at the earliest opportunity to preserve tissues. Should live EBEs be encountered, they should be taken into custody and removed to a top security facility by ambulance. Every effort should be taken to ensure EBE's survival. Personnel involvement with EBEs alive or dead must be kept to an absolute minimum. (See Chapter 5 for more detailed information on dealing with EBEs.)

5. Cleansing the Area

Once all material has been removed from the secured site, the immediate area will be thoroughly inspected to make sure that all traces of Extraterrestrial Technology have been removed. In the case of a crash, the surrounding area will be thoroughly gone over several times to ensure that nothing has been overlooked. The search area involved may vary according to local conditions, at the discretion of the officer in charge. When the officer in charge is satisfied that no further evidence of the event remains at the site, it may be evacuated.

6. Special or Unusual Conditions

The possibility exists that extraterrestrial craft may land or crash in heavily populated areas, where security cannot be maintained or where large segments of the population and the public press may witness these events. Contingency Plan MJ-1949-04P / 78 (TOP SECRET - EYES ONLY) should be held in readiness should the need to make a public disclosure become necessary.

RECEIVING AND HANDLING

Section I. HANDLING UPON RECEIPT OF MATERIAL

a. Uncrating, Unpacking, and Checking

(fig. 3)

Note. The uncrating, unpacking, and checking procedure for containers marked "MAJIC-12 ACCESS ONLY" will be carried out by personnel with MAJIC-12 clearance. Containers marked in this manner will be placed in storage in a top security area until such time as authorized personnel are available for these procedures.

a. Be very careful when uncrating and unpacking the material. Avoid thrusting tools into the interior of the shipping container. Do not damage the packaging materials any more than is absolutely necessary to remove the specimens; these materials may be required for future packaging. Stow the interior packaging materials within the shipping container. When uncrating and unpacking the specimens, follow the procedure given in (1) through (11) below:

- (1) Unpack the specimens in a top security area to prevent access of unauthorized personnel.
- (2) Cut the metal wires with a suitable cutting tool, or twist them with pliers until the straps crystallize and break.
- (3) Remove screws from the top of the shipping container with a screw driver.
- (4) Cut the tape and seals of the case liner so that the waterproof paper will be damaged as little as possible.
- (5) Lift out the packaged specimens from the wooden case.
- (6) Cut the tape which seals the top flaps of the outer cartons; be careful not to damage the cartons.
- (7) Cut the barrier along the top heat sealed seam and carefully remove the inner carton.
- (8) Remove the sealed manila envelope from the top of the inner carton.
- (9) Open the inner carton and remove the fiberboard inserts, dessicant, and humidity indicator.
- (10) Lift out the heat sealed packaging containing the specimens; arrange them in an orderly manner for inspection.
- (11) Place all packaging material in the shipping container for use in future repacking.

b. Thoroughly check all items against the shipping documents. Carefully

CHAPTER 5
EXTRATERRESTRIAL BIOLOGICAL ENTITIES

Section I. LIVING ORGANISMS

1. Scope

a. This section deals with encounters with living Extraterrestrial Biological Entities (EBEs). Such encounters fall under the jurisdiction of MJ-12 OPNAC BBS-01 and will be dealt with by this special unit only. This section details the responsibilities of persons or units making the initial contact.

2. General

Any encounter with entities known to be of extraterrestrial origin is to be considered to be a matter of national security and therefore classified TOP SECRET. Under no circumstance is the general public or the public press to learn of the existence of these entities. The official government policy is that such creatures do not exist, and that no agency of the federal government is now engaged in any study of extraterrestrials or their artifacts. Any deviation from this stated policy is absolutely forbidden.

3. Encounters

Encounters with EBEs may be classified according to one of the following categories:

- a. *Encounters initiated by EBEs.* Possible contact may take place as a result of overtures by the entities themselves. In these instances it is anticipated that encounters will take place at military installations or other secure locations selected by mutual agreement. Such meetings would have the advantage of being limited to personnel with appropriate clearance, away from public scrutiny. Although it is not considered very probable, there also exists the possibility that EBEs may land in public places without prior notice. In this case the OPNAC Team will formulate cover stories for the press and prepare briefings for the President and the Chiefs of Staff.
- b. *Encounters as the result of downed craft.* Contact with survivors of accidents or craft downed by natural events or military action may occur with little or no warning. In these cases, it is important that the initial contact be limited to military personnel to preserve security. Civilian witnesses in the area will be detained and debriefed by MJ-12. Contact with EBEs by military personnel not having MJ-12 or OPNAC clearance is to be strictly limited to action necessary to ensure the availability of the EBEs for study by the OPNAC Team.

TOP SECRET / MAJIC EYES ONLY

Isolation and Custody

a. EBEs will be detained by whatever means are necessary and removed to a secure location as soon as possible. Precautions will be taken by personnel coming in contact with EBEs to minimize the risk of disease as a result of contamination by unknown organisms. If the entities are wearing space suits or breathing apparatus of some kind, care should be exercised to prevent damage to these devices. While all efforts should be taken to assure the well-being of the EBEs, they must be isolated from any contact with unauthorized personnel. While it is not clear what provisions or amenities might be required by non-human entities, they should be provided if possible. The officer in charge of the operation will make these determinations, in accordance with guidelines now exist to cover this area.

b. Injured or wounded entities will be treated by medical personnel assigned to the OPNAC Team. If the team medical personnel are not immediately available, First Aid will be administered by Medical Corps personnel at the initial site. Since little is known about EBE biological functions, aid will be confined to the stopping of bleeding, bandaging of wounds and splinting of broken limbs. No medications of any kind are to be administered as the effects of terrestrial medications on non-human biological systems are impossible to predict. As soon as the injuries are considered stabilized, the EBEs will be moved by closed ambulance or other suitable conveyance to a secure location.

c. In dealing with any living Extraterrestrial Biological Entity, security is of paramount importance. All other considerations are secondary. Although it is preferable to maintain the physical well-being of any entity, the loss of EBE life is considered acceptable if conditions or delays to preserve that life in any way compromises the security of the operations.

d. Once the OPNAC Team has taken custody of the EBEs, their care and transportation to designated facilities becomes the responsibility of OPNAC personnel. Every cooperation will be extended to the team in carrying out their duties. OPNAC Team personnel will be given TOP PRIORITY at all times regardless of their apparent rank or status. No person has the authority to interfere with the OPNAC Team in the performance of its duties, by special direction of the President of the United States.

Section II. NON-LIVING ORGANISMS

1. Scope.

Ideally, retrieval for scientific study of cadavers and other biological remains will be carried out by medical personnel familiar with this type of procedure. Because of security considerations, such collection may need to be done by non-medical personnel. This section will provide guidance for retrieval, preservation, and removal of cadavers and remains in the field.

6. Retrieval and Preservation.

a. The degree of decomposition of organic remains will vary depending on the length of time the remains have been lying in the open unprotected and may be accelerated by both local weather conditions and action by predators. Therefore, biological specimens will be removed from the crash site as quickly as possible to preserve the remains in as good a condition as possible. A photographic record will be made of all remains before they are removed from the site.

b. Personnel involved in this type of operation will take all reasonable precautions to minimize physical contact with the cadavers or remains being retrieved. Surgical gloves should be worn or, if they are not available, wool or leather gloves may be worn provided they are collected for decontamination immediately after use. Shovels and entrenching tools may be employed to handle remains provided caution is exercised to be certain no damage is done to the remains. Remains will be touched with bare hands only if no other means of moving them can be found. All personnel and equipment involved in recovery operations will undergo decontamination procedures immediately after those operations are have been completed.

c. Remains will be preserved against further decomposition as equipment and conditions permit. Cadavers and remains will be bagged or securely wrapped in waterproof coverings. Tarpaulins or foul weather gear may be used for this purpose if necessary. Remains will be refrigerated or packed with ice if available. All remains will be tagged or labeled and the time and date recorded. Wrapped remains will be placed on stretchers or in sealed containers for immediate removal to a secure facility.

d. Small detached pieces and material scraped from solid surfaces will be put in jars or other small capped containers if available. Containers will be clearly marked as to their contents and the time and date recorded. Containers will be refrigerated or packed with ice as soon as possible and removed to a secure facility.

GUIDE TO UFO IDENTIFICATION

Section I. UFOB GUIDE

7. Follow-up Investigations

A UFOB report is worthy of follow-up investigation when it contains information to suggest that a positive identification with a well known phenomenon may be made or when it characterizes an unusual phenomenon. The report should suggest almost immediately, largely by the coherence and clarity of the data, that there is something of identification and/or scientific value. In general, reports which should be given consideration are those which involve several reliable observers, together or separately, and which concern sightings of greater duration than one quarter minute. Exception should be made to this when circumstances attending the report are considered to be extraordinary. Special attention should be given to reports which give promise to a "fix" on the position and to those reports involving unusual trajectories.

8. Rules of Thumb

Every UFOB case should be judged individually but there are a number of "rules of thumb," under each of the following headings, which should prove helpful in determining the necessity for follow-up investigation.

a. *Duration of Sighting.* When the duration of a sighting is less than 15 seconds, the probabilities are great that it is not worthy of follow-up. As a word of caution, however, should a large number of individual observers concur on an unusual sighting of a few seconds duration, it should not be dismissed.

b. *Number of Persons Reporting the Sighting.* Short duration sightings by single individuals are seldom worthy of follow-up. Two or three competent independent observations carry the weight of 10 or more simultaneous individual observations. As an example, 25 people at one spot may observe a strange light in the sky. This, however, has less weight than two reliable people observing the same light from different locations. In the latter case a position-fix is indicated.

c. *Distance from Location of Sightings to Nearest Field Unit.* Reports which meet the preliminary criterion stated above should all be investigated if their occurrence is in the immediate operating vicinity of the squadron concerned. For reports involving greater distances, follow-up necessity might be judged as being inversely proportional to the square of the distances concerned. For example, an occurrence 150 miles away might be con-

ALIEN INSCRIPTION: HAVE THE ROSWELL UFO DEBRIS SYMBOLS BEEN DECIPHERED?

May 2018

The late Dr. Jesse Marcel Jr., MD was witness to some of the Roswell UFO crash debris as a youngster. His father, Major Jesse Marcel, was stationed at Roswell Army Air Field in July of 1947 when directed to investigate a large field of strange, strewn material, fallen from the sky to the desert floor, on a ranch north of town. It was so interesting that he absconded with a bit of the material and brought it home for his family to see. Skeptics often miss this simple, important detail. If the debris were so "mundane" (like balsa sticks and balloons) as they contend, then why would Marcel essentially steal material evidence that he was directed to investigate, taking some of it back to his 12 year old son Jesse Jr. and wife Viaud, so that they too could see how unusual it was?

Dr. Jesse Marcel Jr.

Jesse Marcel Jr. was a noted ear, nose and throat doctor, and was at one time a military flight surgeon. In 1989, Dr. Marcel drew the symbols just as he so vividly remembered them, the "hieroglyphic" figures found on some of the debris. The figures were embossed on an 18 inch fragment of a metal-like "I-beam" structure. The symbols were of a violet-purplish metallic hue and were about $\frac{1}{4}$ to $\frac{1}{2}$ inch tall. When Marcel Jr. showed his drawing of what he remembered the debris symbols looked like to his mother, she concurred that they were her recollection as well. So unique was the material and the characters on it, that Marcel Jr. was able to recall and recreate them decades later.

THE UNITED STATES S-4 FACILITY.

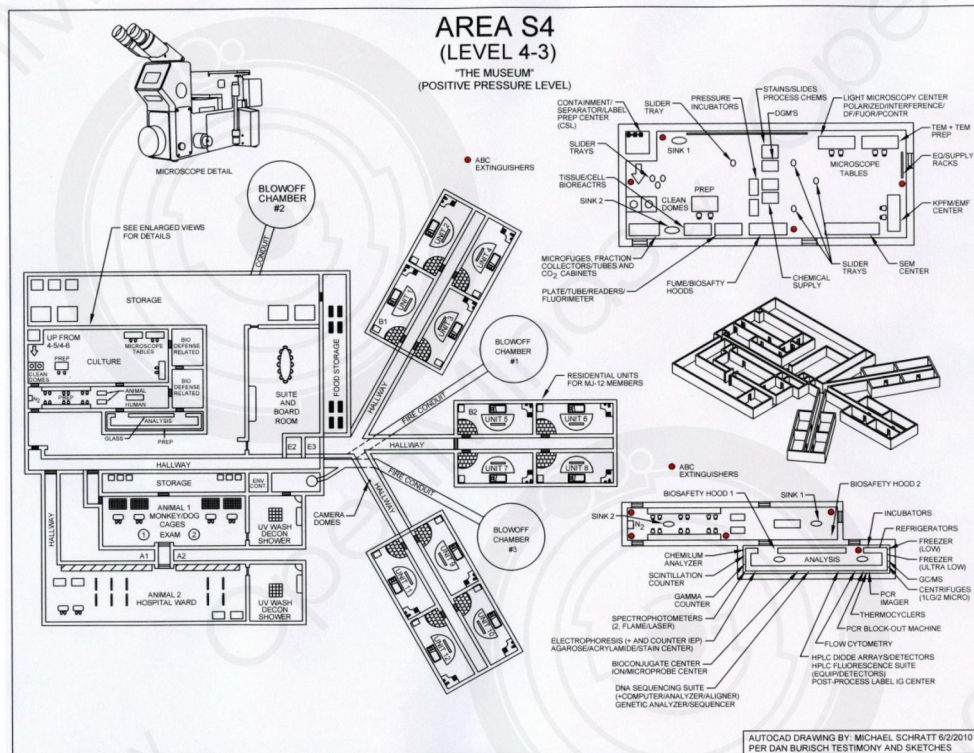

Exploded view of Area S-4 showings levels 1-5 as described by Drs. Dan Burisch and Marcia McDowell. The facility was originally designed as a biological weapons laboratory in the early 1950's. After arriving at Area 51, Dan would either be driven by a bus or flown by helicopter to Area S-4.

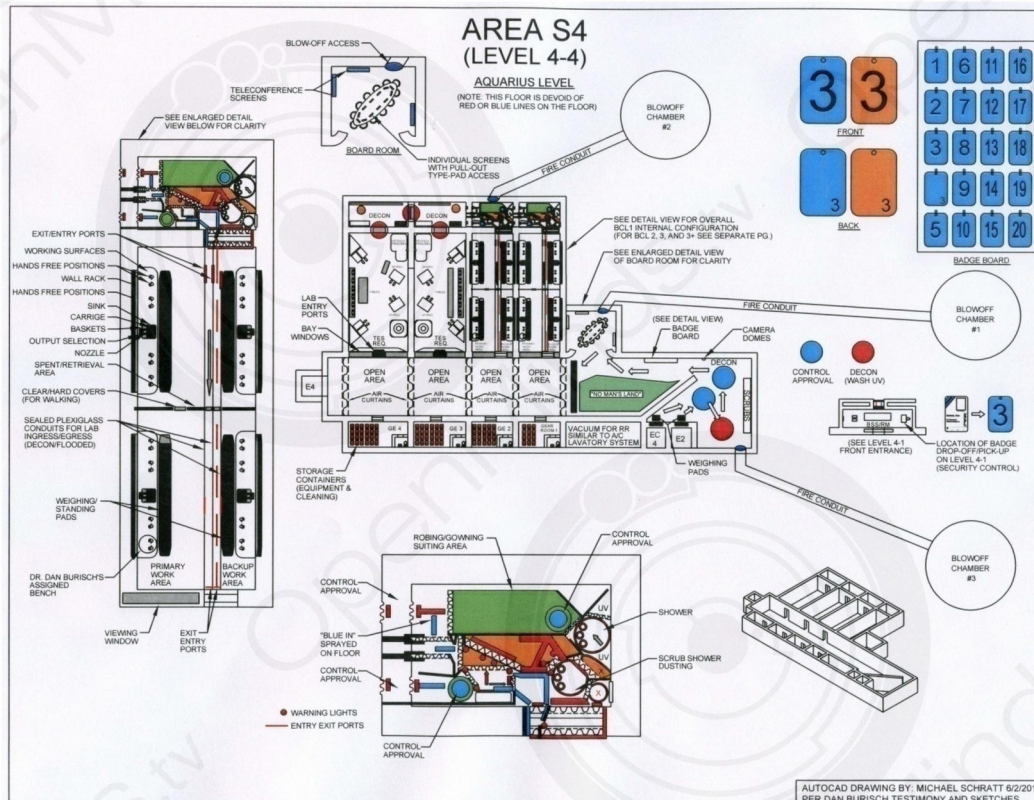

a red circle which contained the designation 4-1 in red text.

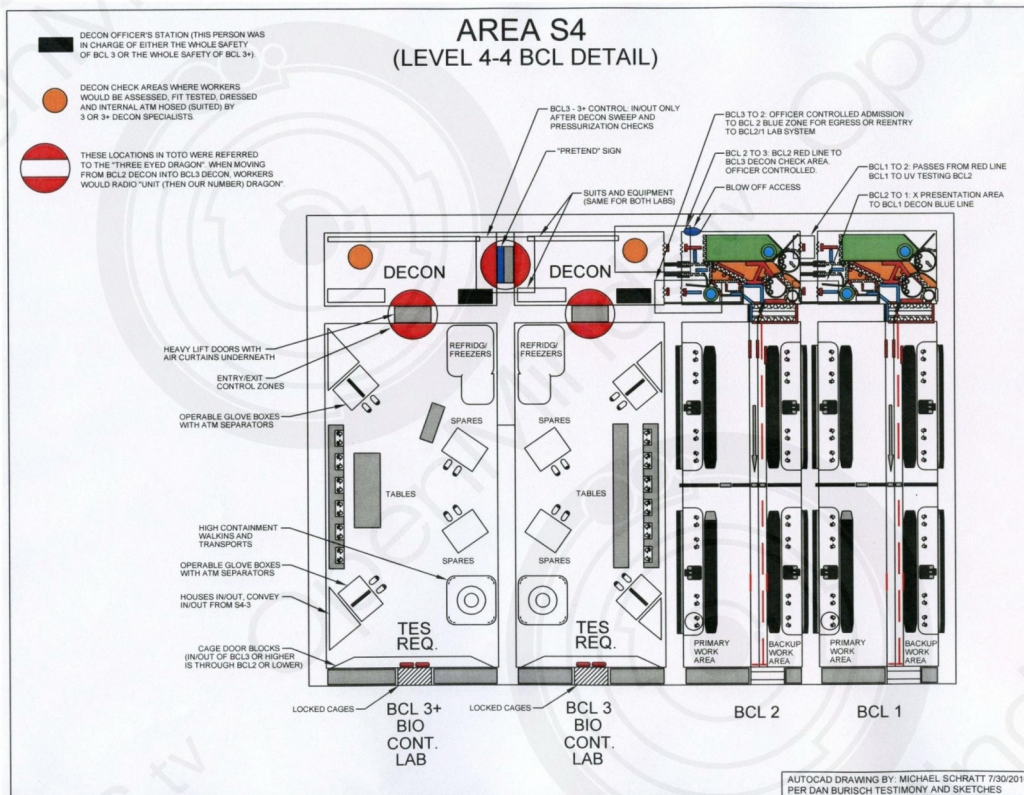

Level 3 of Area S-4 contained the residential living quarters for members of Majestic 12. Dan and I are only willing to say the following, and only that information may be represented as coming from us: "The former Leader of the Consistory of the Majestic was accurately identified by Dr. Dan in an affidavit sworn under penalty of perjury. That former leader was a high ranking official in:

- The United States Navy
- The National Security Agency (NSA)
- The director of National Intelligence's Office

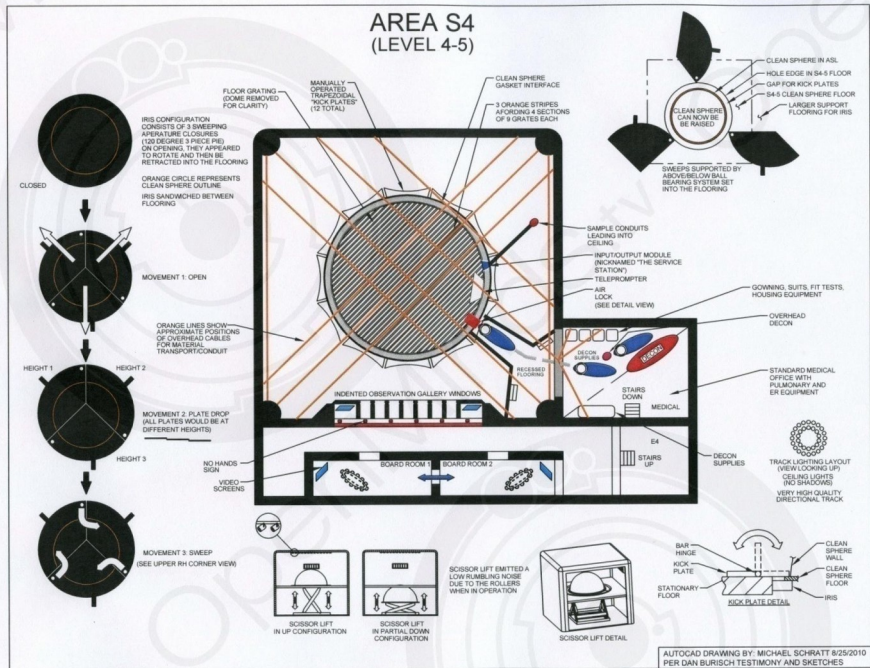

That former leader is properly identified by the name: "J. McConnell". The residential portion of this level consisted of 12 apartment-like rooms, complete with a sunken living area, television and rest room. Level 3 also contained decontamination wash stations, along with a storage facility. Additionally, level 3 contained a board room, and provisions for a fully equipped biological laboratory consisting of tissue and cell culture analysis areas, and dissection facilities.

Level 4 aka the “Aquarius Level” contained five decontamination areas, along with multiple laboratories and equipment rooms. Level 4 also includes the only access elevator to Level 5. While working at Area S4, Dan’s security badge number was: H-6196MAJ. Dr. Marcia’s Majestic badge number was Q-3192MAJ. According to Dr. Dan Burisch, his boss at Area S-4 reported to the Majestic 12, who in turn reported to a cover committee who reported to the Committee of the Majority. The cover committee’s job was to condense, and sometimes prevent reports from reaching the committee of the Majority. The Committee of the Majority was an internationalized version of the group called “The Majestic” which had been started in 1947 by President Harry S. Truman following the Roswell crash. The Majestic 12 were organized after the Roswell crash, not because of extraterrestrial contact; that could have been handled with the existing infrastructure of the U.S. military, while it was being reorganized following World War II.

Army Disk-ounts New Mexico Find As Weather Gear

FORT WORTH, July 9.—(AP)—An examination by the Army revealed last night that a mysterious object found on a lonely New Mexico ranch was a harmless high-altitude weather balloon—not a grounded flying disk.

Excitement was high in disk-conscious Texas until Brig Gen. Roger M. Ramey, commander of the Eight Air Forces with headquarters here cleared up the mystery.

The bundle of tinfoil, broken wood beams and rubber remnants of a balloon was sent here yesterday by army air transport in the wake of reports that it was a flying disk.

But the general said the objects were the crushed remains of a Ray wind target used to determine the direction and velocity of winds at high altitudes.

Date of Patent: Oct. 31, 1989.

The transmission of intelligible speech by audio modulated Microwave is described in the book Microwave Auditory Effects and Applications by James C. Lin 1978 publisher Charles C. Thomas.

BRIEF SUMMARY OF THE INVENTION

I have discovered that a pulsed signal on a radio frequency carrier of about 1,000 megahertz (1000 MHz) is effective in creating intelligible signals inside the head of a person if this electromagnetic (EM) energy is projected through the air to the head of the person. Intelligible signals are applied to the carrier by microphone or other audio source and I cause the bursts to be frequency modulated. The bursts are composed of a group of pulses. The pulses are carefully selected for peak strength and pulse width. Various objects, advantages and features of the invention will be apparent in the specification and claims.

Evolved Expendable Launch Vehicle

USAF

The Evolved Expendable Launch Vehicle (EELV) provides to the Air Force, Navy, and the National Reconnaissance Office (NRO), and other government and commercial purchasers of launch services medium to heavy lift class satellites.

- 70 consecutive successful national security space (NSS) operational launches (as of March 19, 2017).
- The Air Force certified SpaceX as an EELV provider on May 19, 2015.

Mission: Provides launch services and capability for medium to heavy class national security space satellites.

FY 2018 Program: Procures three Air Force launch services. All three are planned for competition and which are usually ordered no-later-than 24 months prior to the planned mission unless additional first time integration is needed; funds EELV Launch Capability (ELC) effort including mission assurance, program management, systems engineering, integration of the space vehicle with the launch vehicle, launch site and range operations, and launch infrastructure maintenance and sustainment. Continues EELV launch service investment to provide two commercially-viable, domestically-sourced space launch service providers with the objective of eliminating reliance on a foreign-made liquid rocket engine.

The invention describes a target system that activates a SAT High Energy Laser at the target.

Embry, AnnMarie Oien, Duane D. Smith, J. Alex Thomson, James Pete Tucker & Samel G. L. Williams – Assignee, Lockheed Martin Corp. & Lockheed Martin Coherent Tech Inc. An imaging method and associated system for producing high-resolution images. The method includes illuminating an object or scene with coherent radiation such as beams from a laser and then, collecting scattered light with a plurality of subapertures rather than a single large aperture. The method continues with coherently detecting, such as with heterodyne detection, the scattered light to measure the complex amplitude incident on each subaperture and digitally reconstructing images from the coherently detected light for the subapertures. Then digital co-phasing is performed on the subapertures using an image sharpness or quality metric to form an image having the resolution of the total subaperture area. The method may also include determining an aimpoint in the formed image, calculating a phase screen, directing laser beams through the subapertures towards the aimpoint, and co-phasing the laser beams by applying the phase screen to form a single beam.

Here is how you build a DIY (Do It Yourself) Radio Warfare Defense System for less than \$ 100.00 USD.

EXTRA CONNECTED SIGNAL COLLECTION PLATE ANTENNA.

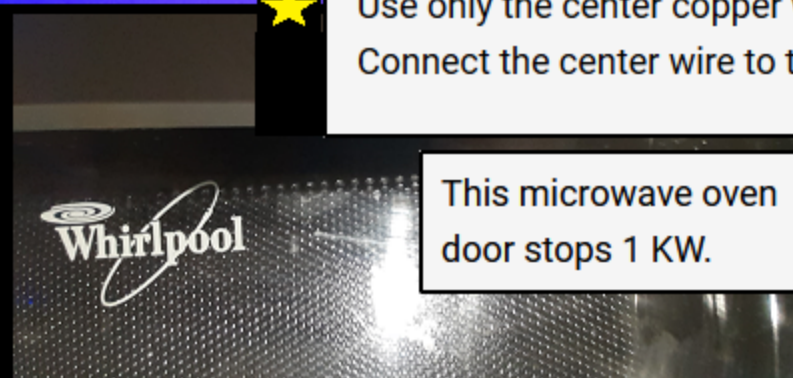

If you look closely, the left black antenna metal plate is flat against the ceiling. The second (right plate) is about 3 centimeters below the ceiling. Both plates are perforated with holes (see close-up at the bottom left). Then a power cable with crocodile clips is connected between the two plates (or more correctly, the 2 black ceiling antennas). This interconnection of the plates **makes the signal hit** the metal plates slightly differently in time, and the cable between them short-circuits the signal. To provide good peace of mind throughout the installation room, you should then connect a ground cable to the short-circuit cord, to guide everything present in the black antennas straight down into the ground. What would now have been microwaves in the room, which bounce around, are first collected, then short-circuited with themselves, and the residues are then led down and neutralized in the ground or soil.

The left one is flat against the ceiling. The right one is 2 to 3 cm from the roof. Both antennas are perforated with holes.

Grounding kit. Drill and 15 meter satellite cable = \$ 15.00 USD. Use only the center copper wire. The outer protects the ground wire. Connect the center wire to the top and hit the drill into the ground.

This microwave oven door stops 1 KW.

MICROWAVE OVEN DOOR WITH NET HOLES.

400 mm DRILL = \$ 2.00 USD.

An even more powerful construction can be achieved by applying heavy magnets to the construction. I can show you later.

M. Domestic and Constitutional Issues

*** CLEAR VIOLATIONS OF THE LAW.
That's why they are Traitors today and uses
Traitor Technology without doubt.

In dealing with clear violations of civil law and guarantees as defined under the Constitution, it has been discussed among members of MAJESTIC TWELVE, that such protection of individual rights are out-weighed by the nature of the threat. Only a declaration of war or a national emergency, would give the government the power to enact martial law and recend individual rights.

M. Social, Religious and Scientific Reaction

It has been the downfall of great nations and cultures when a new reality is not readily accepted by the masses. The social order was severely ravaged by the last world war, with great damage to the religious dogma of "earth without end," thus making a government disclosure irresponsible and inherently dangerous. The scientific community would predictably question such a reaction as a world suffering from a Buck Rogers delerium and attack anyone of their own ranks for believing such fanatsy. Science itself, may undergo a traumatic transformation, with belief structures in shambles, putting the institutions under scrutiny by the layman, thus eroding any credibility. Science would be left with an image of credulity.

ON LAST PAGE: ALIEN POETRY AND WISDOM.

1.

Three truths and realities we must accept:

- 1/ We are all one of the same kind.
- 2/ We are all Gods inside.
- 3/ We are all unique and special.

It believes itself to be our Creator.

3.

Here I lie and control the future, as you see. I am your father. We can rule the galaxy together. HIGH FIVE! www.alien1947.com

2.

Time is an illusion.

The only thing that matters is the here and now.

Not the past.

Not the future.

Time is an illusion.

You control the present, therefore you control the past, therefore you control the future. Your future.
